

SECTION 3 - INSTRUCTOR QUALIFICATIONS

Instructors seeking to add courses to their approved listing of courses must submit an application to the PIPE and demonstrate that they meet the course specific requirements.

Demonstration of active and engaged experience within a particular discipline may be accomplished by illustrating practical application of the expertise within your work history. This may include both “hands on” execution, as well as active supervision or management of others within the discipline. Consideration will be given to various factors including, without limitation, the following:

1. Volume of work within the discipline, e.g., number of parcels, files, appraisals, cases, etc.;
2. Number of projects requiring your experience or expertise;
3. Length of time in a position of employment where the expertise was utilized on a regular and consistent basis;
4. Percentage of workload dedicated to the discipline or requiring the expertise;
5. Additional licenses, certifications, or degrees obtained within the field; and
6. Participation in seminars, presentations related to the specific subject matter.

100-Series: Basic Right of Way Disciplines

You must meet the **Course Specific Qualifications** noted in the following Table.

100-Series Courses	
Course 100: Principles of Land Acquisition	Specific Qualifications: <ul style="list-style-type: none"> • Hold an SR/WA designation. • Demonstration of active and engaged experience in at least four of the six subject matter disciplines: a.
