

AND THE WINNER IS...

Recognizing IRWA's Young Professionals

BY MATTHEW ECKMANN, SR/WA

The Golden Globes, The Grammy's, The Academy Awards, The Screen Actors Guild Awards, The Emmy's, The CMA's, the VMA's and the Tony's. In this season of Awards shows, the list goes on and on. All these shows are great, but the one awards ceremony I look forward to most every year is the Annual SR/WA Recognition and Awards Luncheon, which is held at the Annual International Education Conference. This year, the conference will be hosted by the Beaver State Chapter 3 in Portland, Oregon.

Year after year, it amazes me to hear the stories of the nominees and the winners, and the passion they have for this great organization. From the wonderful people who run their Chapter's website and newsletter, the dedicated instructors focused on developing professionals in the right of way field, to the employers who support their employee's participation at the local, regional and international levels—there is an award recognizing all of their great work and commitment to this organization. For obvious reasons, however, my favorite award by far is the Young Professional of the Year Award. Starting in 2012, the International Nominations and Elections Committee decided that they would begin including an award acknowledging the contributions that the Young Professionals within the organization are making. This was a great accomplishment for the Young Professionals Committee to have their members recognized alongside some of the most impactful individuals, employers and Chapters in the organization. And now, every year a Young Professional gets to stand up on that stage in front of the entire organization and be recognized for the contributions he or she has made to the right of way profession.

When conceiving the idea for this article, the Young Professionals Committee decided that we would like to honor all the Young Professionals across the organization at the Chapter and Region levels who have been awarded Young Professional of the Year or who have been recognized by their Chapter/Region Leadership for their contributions. We asked Chapter Presidents and Region Chairs to acknowledge their most recent awardees or acknowledge a Young Professional who has stood out and made an impact within the organization. I am excited to present all the responses we received here in this article. If you happen to know one of the Young Professionals

mentioned in this article or if you meet them at the upcoming conference, be sure to take a moment and thank them for all that they do for their Chapters, Regions and the IRWA.
